

THANK
YOU

Dear Dr. Kirby,

Thank you for taking my case and pushing me to be better. I always felt like my health and well being were your priority. You refocused my priority on being healthy. I have obtained a surgery that I have been putting off (not fast related) and lost over 35 pounds since coming to you. I know it was a surprise to see my MRI, but I never doubted your faith in getting me better. I had the surgery with hardware, ligament repair, and large amounts of scar tissue removed. Thanks again, W Y
