

Dear Dr. Kirby,

5-26-12

Thank you so much for everything!!! Thank you for your expertise and knowledge - for spending so much time and effort and careful consideration in trying to alleviate some of my pain. And, most of all, thank you for caring about the outcome.

Even if Plan B (hard orthotics) proves to be unsuccessful, at least I will know I have been to the best Podiatric Dr. there is and tried everything possible to find an answer for my feet. As I said before, you really are a national treasure and I feel very privileged to be your patient.

Sincerely, S R

P.S. I got some hiking boots - you were right about that too - they seem to be helping.
